

Application Number: 10/777,579
Art Unit 1731

IORDAN01

REMARKS

The drawings and specification have been amended to more clearly show the position of the torch flame igniter with respect to the combustion chamber and the mouth piece.

In view of the above, and the previously submitted amendment to the claims, it is believed that all of the claims are patentable and it is requested that reconsideration of the rejection be made.

Respectfully submitted,

For: George Iordan
